U.S. Patent and Trademark Office PTOL-303 (Rev. 7-05)

Continuation Sheet (PTO-303)

Application No. 10/714,328

Continuation of 3. NOTE: applicant's specification states a non-ferrous alloy powder using silver. Thus the additions are silver alloy compounds.

Continuation of 13. Other: applicant argues that Shimamura et al. and Nadkarni et al, do not disclose the use of silver and thus are not appliable references. The examiner respectfully notes that silver is disclosed by Prucher and that the references must be taken in combination and not just treated separately. In addition applicant's specification states that a silver, non-ferrous alloy powder is used and this is exactly what is taught by Prucher, hence Prucher is an applicable reference.
